

KROTOSZYN MY CITY

Krotoszyn is a city with a soul. The soul is visible in the city's tradition, people's behaviour; in the past and in the present. The street are changing and the people walking by, too.

I can see it because I have opened my heart for the soul of the city. Today, I am from here. I am an ordinary citizen, a student of one of the high schools. I have met a lot of people in this city and I wonder what is my role in the future of the city.

Sometimes I ask myself:

Shall we change or transform anything? What is the most important thing for that city? I still cannot find an answer although I try really hard. Meanwhile, I would like to promote my city by showing its beautiful and important places which can be interesting for visitors. I want not only to improve the image of the city but also present its one and only soul. I wish my youthful admiration for this city remains the same.

It is still present in a great amount of people who were born here although they do not live here - in the Southern Wielkopolska - anymore. I watch the city every day. I become the part of it. I try to see its future.

I know the time will come when I have to decide if I stay here or not but I will recall the city every day no matter where I will have to live.
